

Importing Racers from a FIS Data base.

This is so easy it is wonderful. Obviously a big rework by the software writers on this.

In the Manage Competitors Screen, make this selection:-

This will appear:-

Ensure The Federation files directory is "C:\SkiPro\Import\"

In the drop down box select the race type you are timing, I am doing a FIS Alpine, remember?

If you are connected to the internet, and your fire wall does not stop it, click on the world

and this will happen:-

The red square will go green if it's worked and a list number will appear.

Click on  and it may ask you if you wish to download the list again. If so click yes. If this is your first time. This will happen:-

List type : FIS Alpin List
 List number : 807 0.17 Mo / 7.22 Mo

With the number increasing as the file is downloaded. On completion and it takes some time SkiPro screen will be blank for quite a while, it's doing a lot of work.

Once it's completed and this reappears:-

List choice

List type : FIS Alpin List
 List number : 807 Download this list

Federation files directory
 C:\SkiPro\Import\

Ok Cancel

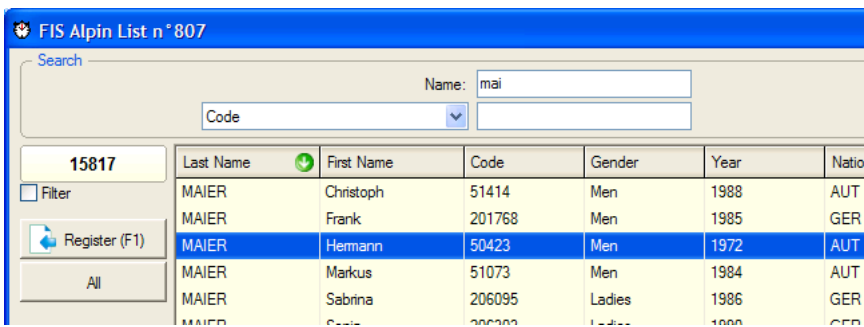

Click OK, and this will appear:-

This is a list of all FIS racers.

Using the name search function :-

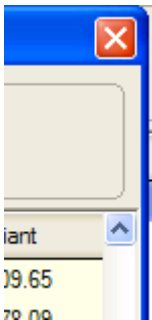

Select the racers present at your race, and register then using the

button. Here am I about to register Hermann Maier for my down hill in Scotland!!

Once you have registered all your racers click on the red window close button:-

In the top of the FIS list window.
